UTAH STATE UNIVERSITY'S CEREMONIAL MACE

The top of the mace depicts the circle of learning, the cycle of study, practice and tradition in which we learn, grow and teach. In the same way the students, alumni, professors and practitioners of Utah State University represent our highest achievements, the brushed copper disk emblazoned with the university's official seal crowns the mace and sends light upward in every direction, symbolizing the illumination of truth reaching out across our community, our state and our world.

The copper bezel has thirteen sunstones set into it. These symbolize the thirteen presidents who guided the institution through its first century.

The white oak shaft comes from wood that was originally part of the banisters of Old Main and rescued from the building after the fire of 1983.

The base consists of limestone provided by The Church of Jesus Christ of Latter-day Saints and taken from the same quarry that was used to build the Logan Temple.

The mace of Utah State University envisions the very essence of our land-grant institution: seated in the bedrock of our community, striving and growing ever higher, sealed on top by a ring of metal, an emblem of our timeless quest for the merits born of learning.

A BRIEF HISTORY OF MACES

Maces have long been part of academic heraldry, though their function was not always ceremonial. Originally weapons of war, maces are featured often in ancient Egyptian art where kings are shown ritually smiting their foes. This original function has not been entirely lost. Campus officials in the Middle Ages more than once kept students in line by employing their university's mace in a manner recalling its primitive function. Even in the modern age, it is not unknown for a university mace to be used in this way. For instance, during the commencement ceremonies at Cornell in 1973, when a professor of medieval studies who was carrying the university's mace in a procession was confronted by protesters, he wielded his academic training and the mace in its original fashion.

University maces today are, for the most part, treated as decorative emblems symbolizing the institution's authority. Seen most often at commencement and other solemn occasions, they remind those in attendance of the deep traditions inherent in a student's journey through university studies. Like the word for the ceremony itself, "commencement,"—which admonishes its participants to remember that this is a celebration of beginnings, not endings—the mace turns the eye forward to the life to come by recalling the rich academic heritage of higher learning and the promise of attainment that comes through education and self-betterment. Our mace, thus, combines elements of both the old and the new, traditional features like gems and stone enhanced with modern designs such as arcs of faceted crystal. Both an impressive work of art and a hallmark of the university's history, this mace brings to light everything that is best about Utah State University.

ACADEMIC HERALDRY

The history of academic heraldry reaches back into the early days of the university. A statute of 1321 required that all “Doctors, Licentiates and Bachelors” of the University of Coimbra wear gowns. In England, in the fourteenth century, the statutes of certain colleges forbade “excess in apparel” and prescribed the wearing of a long gown, necessary, no doubt, for warmth in the unheated buildings frequented by medieval scholars. Hoods were used to cover the head until replaced by the skull cap and later academic caps. Both Cambridge and Oxford have made academic dress a matter of university control down to the most minor detail; and in Oxford during the seventeenth century any tailor who changed the authorized design “even by a nail’s breadth” was punished by the vice-chancellor of the university. When American colleges and universities decided to adopt some suitable system of academic apparel, it seemed best to agree on one that all might follow. Accordingly, there was held on May 16, 1895, at Columbia University, a conference of representatives of the boards of various interested institutions. From that meeting came a code of academic dress for the colleges and universities of the United States, which most institutions of higher learning have adopted.

GOWNS

The academic gown for the bachelor’s degree has pointed sleeves and is designed to be worn closed. The gown for the master’s degree has an oblong sleeve, open at the wrist. The sleeve base hangs down in the traditional manner. The rear part of its oblong shape is square cut, and the front part has an arc cut away. It is designed this way so that it can be worn open or closed. The gown for the doctoral degree has bell-shaped sleeves and may be worn open or closed.

COLORS

For all academic purposes, including trimmings of doctoral gowns, edging of hoods and tassels of caps, the colors associated with the different academic disciplines are as follows:

Agriculture and Applied Sciences, *Maize*
Arts, *Brown*
Business, *Drab*
Education and Human Services, *Light Blue*
Engineering, *Orange*
Humanities and Social Sciences, *White*
Natural Resources, *Russet*
Science, *Gold-Yellow*
School of Graduate Studies, *Black*
Associate Degrees, *Black*

The white ribbon with the Greek key on the robe of a graduate identifies an inductee into Phi Kappa Phi, the National Scholastic Society. Those wearing gray collars and a medallion are Mortar Board Senior Honor Society members. A gold braided cord draped over the cowl distinguishes a graduate of Honors.

HOODS

Academic hoods are worn by recipients of advanced degrees. The master’s degree hoods are three-and-one-half feet in length and are lined with the official color or colors of the college or university conferring the degree, which at Utah State University are navy blue and white, displayed in a heraldic chevron. The doctoral hood consists of a larger and longer assemblage of institutional color draped over the recipient’s shoulders and falling well down the back. The binding or edging of the hoods is of velvet or velveteen, three inches wide for the master’s degree and five inches wide for the doctoral degree.

CAPS

Academic caps come in two forms: the traditional mortarboard (from Oxford) or square cap; and a soft cap that resembles an oversized beret (from Cambridge). The mortarboard used by Utah State University is worn with a tassel. Black tassels designate the graduate’s major field of learning, and gold tassels indicate doctors and the governing officials of institutions.

ACADEMIC PROCESSION

The commencement procession originates at the University Quad and the line of march proceeds to the Dee Glen Smith Spectrum. The procession is composed of three divisions: (1) color guard, University President, Regents and the Board of Trustees, administrative officers and special guests; (2) the faculty; and (3) candidates for degrees. The procession stops at the tunnel entrance to the Spectrum, the first two divisions dividing so that the candidates for graduation pass between them and enter the hall first.

INSTALLATION OF PRESIDENT

Noelle E. Cockett

16th President of Utah State University

President Noelle E. Cockett freely shares the fact that she never intended on building a career in administration — yet she's probably the most experienced administrator to ever hold Utah State University's top post.

Cockett was appointed as USU's 16th president in October of 2016, officially beginning her tenure in January of 2017. When the president's selection was announced, she was already one of USU's most promising, rising leaders, serving at the time as executive vice president and provost, a post she had held since 2013. Prior to that, she helped shape USU as vice president for Extension from 2006 to 2013, as dean of the College of Agriculture and Applied Sciences from 2002 to 2013 and led the Utah Agriculture Experiment Station as its director from 2009 to 2013. She once also accepted an invitation to serve as interim dean of USU's Office of Research and Graduate Studies. "Administration was actually a very unintended direction," she says. Still, she remains forever grateful for each treasured experience she has gained, from each individual she has had the pleasure to meet, from each new opportunity she has had to lead — even while balancing her distinguished career in sheep genomics research all along the way.

President Cockett fully understands meeting the demands born both of executive leadership and of elite-level international research are substantial. "It's a pull for me and it always has been," she says. But she is also convinced the rewards can run equally deep. The opportunity to meld two such fascinating and intellectually invigorating worlds, where the lives and aspirations of many can be facilitated and lifted daily, is one the president will never take for granted. "I'm still doing research because it's just something I love," she says. "And I would say each opportunity to serve USU has built my administrative strength."

The President's research program has centered on the identification of genetic markers associated with economically important traits in sheep, as well as the development of resources that advance research on the sheep genome. Cockett and her colleagues published an article describing the sheep genome sequence in *Science* in 2014. Her current project focuses on the identification of genetic regions associated with entropion in newborn lambs. She has served as the United States coordinator for sheep genome mapping since 1993 and is an active member of the International Sheep Genomics Consortium. Her celebrated career as an active researcher has produced a Young Scientist Award from the Western Section of the American Society of Animal Science (ASAS), the Utah Governor's Medal for Science and Technology (2004 and 2015) and one of USU's top honors, the D. Wynne Thorne Career Research Award.

After receiving her master's and doctorate in animal breeding and genetics from Oregon State University, Cockett spent five years as a research geneticist at the United States Department of Agriculture, Agriculture Research Service U.S. Meat Animal Research Center in Clay Center, Nebraska. She joined USU in 1990 as a researcher and assistant professor in the Department of Animal, Dairy and Veterinary Sciences in the College of Agriculture and Applied Sciences.

Cockett grew up on a beef cattle ranch in eastern Montana and is married to John Cockett, director of technology in USU's Emma Eccles Jones College of Education and Human Services. Noelle and John have two children, Dylan and Chantelle.

COMMENCEMENT SPEAKER & HONORARY DEGREE

Adam Grant

Adam Grant is changing the way leaders view their workforces. A leading expert on how one can find motivation and meaning, Dr. Grant has guided hundreds on how to live a more generous and creative life.

The *New York Times* bestselling author upended decades of conventional thinking with the thesis that giving unselfishly to colleagues or clients can lead to one's own long-term success. Dr. Grant's #1 bestselling book, *Originals: How Non-Conformists Move the World* (2016) explores how unconventional thinkers overturn the status quo and champion game-changing ideas while his book *Give and Take* (2013), examines why helping others drives one's success. He is currently working on his third book, *Option B* (2017), with Sheryl Sandberg, about resilience.

Rated as a top professor at the Wharton School at the University of Pennsylvania for the past five years, Dr. Grant has been recognized as one of the world's "25 Most Influential Management Thinkers" by *Thinkers50* and is one of *Fortune Magazine's* "40 Under 40." He has earned awards for distinguished scholarly achievement from the Academy of Management, the American Psychological Association and the National Science Foundation. He has more than 60 publications in leading management and psychology journals and his pioneering studies have increased performance and reduced burnout among engineers and sales professionals, enhanced call center productivity and motivated safety behaviors among doctors, nurses and lifeguards.

Along with his scholarly duties, Dr. Grant devotes much of his time working with clients. His TED talks on the topics of original thinkers and givers and takers have been viewed more than 7 million times. He received a standing ovation at TED in 2016 and was voted the audience's favorite speaker by the Nantucket Project. His speaking and consulting clients include Facebook, Google, the NBA, Merck, Goldman Sachs, Pixar, the U.S. Army and Navy and the World Economic Forum where he has been honored as a Young Global Leader. Dr. Grant writes on work and psychology for the *New York Times*, where his articles on the topics of raising a moral child and raising a creative child have each been shared more than 300,000 times.

A dynamic speaker and professor, Dr. Grant was tenured at Wharton while still in his 20s, receiving the Excellence in Teaching Award for every class he has taught. He is the founder and host of the Authors@Wharton speaker series and co-director of Wharton People Analytics. He is a passionate feminist who serves on the Lean In board and the Defense Innovation Advisory Board at the Pentagon.

Dr. Grant earned a doctorate in organizational psychology from the University of Michigan and a bachelor's from Harvard University, magna cum laude. He was an All-American Springboard Diver and, during his college years, worked as a professional magician.

For his dedication to teaching and scholarship and his ability to inspire others to become "givers," Utah State University is proud to bestow upon Adam Grant the honorary degree, Doctor of Business.

HONORARY DEGREE

Ted Stewart

Born in Logan, Utah, and raised on a dairy farm in Weston, Idaho, Judge Ted Stewart went on to a successful public service career in Utah.

Judge Stewart was nominated by President Bill Clinton on July 27, 1999, to the United States District Court of the District of Utah and, later that year, confirmed and sworn in by the U.S. Senate. He became Chief Judge for the District of Utah in January 2011, where he served until 2015.

After graduating from Utah State University in 1972, with a bachelor's in political science and a minor in history, Judge Stewart earned a *Juris Doctor* from the University of Utah. During his time at USU, he served as student body president in the 1971-72 academic year.

Early in his career, Judge Stewart worked in private law practice with the Salt Lake City firm Senior and Senior. He left the practice of law in 1981 to join U.S. Congressman Jim Hansen's Washington, D.C., office, where he served as chief of staff. Judge Stewart returned to Utah in 1985 when he was appointed by Utah Governor Norm Bangerter to the Utah Public Service Commission, serving as both a member and chairman. He then worked as executive director of the Utah Department of Commerce and, later, as executive director of the Utah Department of Natural Resources. He served as chief of staff to Governor Michael O. Leavitt from March 1998 to November 1999.

Judge Stewart began teaching as a visiting professor at USU beginning in 1991, teaching courses on the United States Congress, environmental law and policy, democracy and public policy and the U.S. Supreme Court.

Along with his brother, Chris, Judge Stewart is the author of two books. The first, *Seven Miracles That Saved America*, received an award from the Freedom Foundation at Valley Forge. The second book, *The Miracle of Freedom: 7 Tipping Points that Saved the World*, was a *New York Times* bestseller. He is also the sole author of the book, *The Mark of a Giant: 7 People Who Changed the World*.

In his professional career, Judge Stewart has been honored with recognition from numerous organizations, including the Utah Farm Bureau, various wildlife organizations and the Utah Board of Water Resources. He was the recipient of the Distinguished Service Award from the Utah Chapter of the Federal Bar Association in 2011. In 2014, Utah State University honored Judge Stewart with a Distinguished Service Award.

Judge Stewart resides in Farmington, Utah. He and his wife, Lora, are the parents of six children and 17 grandchildren.

For his many contributions to the state of Utah through his distinguished career in public service and to the promotion of justice as part of his service to the federal judiciary, Utah State University is proud to bestow upon Ted Stewart the honorary degree, Doctor of Humane Letters.

HONORARY DEGREE

Don J. Wang

Utah State University alumnus Don J. Wang has spent much of his life as a strong community leader in Houston, Texas. He continues to distinguish himself as someone dedicated to serving his community, in particular helping to better conditions for Asian immigrants.

In 1987, Mr. Wang helped found Metrobank to meet the financial needs of various ethnic communities in Houston, where he served as chairman of the board of the company and bank until 2014. He has also served as chairman of the New Era Life Insurance Company during that time.

An active member in a number of business organizations, Mr. Wang has been a longtime board member of the Greater Houston Partnership, the supervisory board of directors of the World Trade Division and the Greater Houston Convention and Visitors Bureau. He currently serves on the board of directors for both the Greater Southwest Management District and the Chinese Senior Estate, a U.S. Department of Housing and Urban Development Senior Housing project.

Mr. Wang takes an active role in enhancing communications between Houston's international business community, particularly those of Asian descent, and the city's local government and business leaders. On April 29, 1993, former Houston Mayor Bob Lanier proclaimed "Don J. Wang Day" in recognition of Mr. Wang's many achievements in Asian community relations. In addition to his business-related obligations, Mr. Wang takes the time to serve others having served on the Board of Directors for the Harris County Hospital District and the Metropolitan Transit Authority.

Throughout his career, Mr. Wang has received numerous awards and recognitions. In 1999, he received the International Executive of the Year Award from the Kiwanis Club of Houston and the Greater Houston Partnership. In 2004, he took home the Arrival Award from the University of Houston Law Center. In 2009, Mr. Wang was inducted into the Houston Hall of Fame. He has also received Distinguished Service awards from Tainan First High School, National Chung Hsing University in Taiwan and USU.

Mr. Wang has successfully managed to balance his numerous achievements in the business world with a strong record of giving back to the community. His widely recognized leadership ability has been tapped by several city administrations and countless community organizations throughout his career.

After receiving a bachelor's degree from National Chung Hsing University, Mr. Wang went on to earn a master's in Nutrition and Food Sciences from Utah State University.

For his selfless public service and for his commitment to giving back to his community and country, Utah State University is proud to bestow upon Don J. Wang the honorary degree, Doctor of Agriculture.

HONORARY DEGREE

Beverly Jean Larson White

A proud Utah resident, Beverly Jean Larson White has held many government positions in local, state and federal realms throughout her career.

A pioneer for women working in the professional arena, Mrs. White was the first woman on the Board of Corrections for the Utah State Prison. During this time, she created outreach programs for inmates to talk to high school students and began church services in the prison for inmates and their families.

Born in Salt Lake and raised in Tooele, Mrs. White's interest in politics blossomed while in high school, where she served on the student government. After being appointed to the Utah State House of Representatives to fill a vacant seat, she would go on to get elected and then serve a consecutive 20 years as a woman legislator, longer than any other woman in the state of Utah. While in office, she was instrumental in the introduction of domestic violence, child abuse and mental health legislation,

as well as the Displaced Homemaker Act. She also helped establish the Children's Justice Center in Tooele and worked for the Tooele Adult Probation and Parole Office until her retirement at the age of 78.

As an invested resident of Tooele, Mrs. White was instrumental in the establishment of USU-Tooele by assisting in obtaining appropriations and serving on the Advisory Board. She also helped initiate a nursing program on the campus.

Although busy in the public service sector, Mrs. White continued to pursue areas of personal interest. She authored a book, *In My Opinion – A Twenty Year Look at the Utah State Legislature* (1996), and assisted author Delila Abbot with the completion of the book, *Women Legislators of Utah 1896-1993* (1993), which she is currently updating.

Recognized throughout her many years of service, Mrs. White is the recipient of the Susa Young Gates Award (1975), Legislator of the Year (1981), Woman of the Year from the Central Women Club of Utah (1982), Service in Nursing Award (1988) and Democratic Legislator of the Year (1987).

Aside from her many appointments and elections Mrs. White maintained an active role with The Church of Jesus Christ of Latter-day Saints, where her most rewarding positions were with the youth activity organizations. She also volunteered in the 2002 Winter Olympics in Salt Lake.

Mrs. White's most cherished legacy is that of her family. She married her high school sweetheart, Floyd White, following his service in the Army, and the couple raised five children, as well as Mrs. White's half-brother. A firm believer in the value of education, all of Mrs. White's children have graduated from college. Today, she is extremely proud that she has been able to provide educational funds for her 13 grandchildren and 25 great-grandchildren.

For her dedication and service to the state of Utah, Utah State University is proud to bestow upon Beverly Jean Larson White the honorary degree, Doctor of Humane Letters.

D. WYNNE THORNE CAREER RESEARCH AWARD

To Ann T. Tschanz

JoAnn Tschanz, professor in the Utah State University Psychology Department, has shown continuing dedication in researching dementia and other cognitive disorders. Her work with the Cache County Study on Memory and Aging has become well-known with psychology professionals around the world.

Dr. Tschanz studied at Idaho State University for her undergraduate degree and moved on to Indiana University to complete her doctoral degree. She continued at the University of Washington Medical Center as a postdoctoral fellow, after which she joined Utah State in 1994 as a member of the Cache County Study team. She became a professor in 1999 in the department of Psychology, a position she maintains today.

Dr. Tschanz continues to work with researchers from Utah State, Duke University Medical Center and the Johns Hopkins University on population-based studies of dementia progress, allowing her to gain a novel perspective on how care and

environmental factors predict rates of dementia progression within three domains: cognition, function and neuropsychiatric symptoms. Her expertise has led her to receive numerous grants and awards, including the Research Project Grant from the National Institutes of Health in 2016 and a Lifetime of Exception Achievement Award from Utah Alzheimer's Association in 2012. Her research has been displayed in more than 100 peer-reviewed articles that have been cited more than 4,000 times since 2012.

Along with her remarkable research abilities, Dr. Tschanz has taken on the role of mentor to many graduate students and has worked to ensure they receive the proper training for future research opportunities in psychology. Her work has become a great asset to Utah State University and beyond.

Dr. Tschanz is truly deserving of the D. Wynne Thorne Career Research Award because of her continued scholarly efforts in psychology research at Utah State University.

ELDON J. GARDNER TEACHING AWARD

Matt Omasta

Matt Omasta serves the Utah State University Department of Theatre Arts as associate professor, assistant department head and director of the programs in Theatre Education and Applied Theatre. Since elementary school, he has spent his lifetime exploring the intersections of theatre and education.

Dr. Omasta studied drama at Ithaca College, where he gained a broad understanding of professional theater practices and an introduction to theater research. After graduation, he worked professionally with Walt Disney Entertainment and Florida Studio Theatre before pursuing a master's in theatre education at Emerson College. He went on to earn a doctorate at Arizona State University. He arrived at Utah State University in 2010.

Today, Dr. Omasta's teaching focuses on preparing students as artists, scholars, and citizens in the areas K-12 theater/drama education, applied theater and theatre for young audiences. His research appears in journals including *Research in Drama Education: The Journal of Applied Theatre & Performance*, *Youth Theatre Journal*, *Theatre Topics*, *Teaching Theatre*, and *The International Journal of Education and the Arts* and others. His books include *Playwriting & Young Audiences* (Intellect Press), *Qualitative Research: Analyzing Life* (SAGE Publications), and *Play, Performance & Identity* (Routledge).

In addition to his teaching and research, Dr. Omasta is an active and creative artist, serving often as a director of theater for young audiences and devised, community-engaged productions. Recent productions include *Seussical Jr!* with the Utah Festival Opera and Music Theatre Conservatory, *Peter Pan* with the Imagination Stage (MD) Summer Theatre Campus, *Wiley and the Hairy Man* with Logan's Unicorn Theatre and a number of shows at USU including *Still Life with Iris*.

Dr. Omasta's work has been recognized by the American Alliance for Theatre & Education, the Educational Theatre Association and others such as the American Educational Research Association and the Kennedy Center America College Theatre Festival. He serves on the board of directors of the American Alliance for Theatre & Education and as program chair of the American Educational Research Association's Arts & Learning Special Interest Group and on the editorial boards of *Youth Theatre Journal* and *Arts Education Policy Review*.

E. G. PETERSON EXTENSION AWARD

Diane Reese

Utah State University Extension professor Diane Reese has given her energy, passion and heart to USU through her many roles.

The first woman regional director in Utah, Professor Reese has been a role model and support to many. She was an Extension associate professor and Extension director for the Northern Region for 12 years. Prior to that, she was director for the Southwest Region for nine years. After 26 years of service, Professor Reese is retiring this year from USU Extension.

The entire state of Utah has benefitted from Professor Reese's leadership and vision. Her thoughtful perspective and encouraging words have helped many, and USU Extension is a better organization because of her guidance. She has worked well with commissioners, stakeholders and county faculty to establish county priorities and budgets and has established a climate for programming efficiency and teamwork.

Professor Reese started her career with Extension in 1990 as an agent. She became an Extension assistant professor in 1996 and associate professor in 1999. Throughout her career, she always tried to learn from her faculty and staff and did all she could to

support them. She listened carefully and didn't form opinions until she learned facts and put everything into perspective. She made decisions based on what was best for the university, the county and the individual.

A member of multiple state and national organizations, Professor Reese was the Western Region Middle Managers chair for Utah, where she planned events for Extension conferences for 13 western states. She has had a large supervisory role in Extension, overseeing personnel and programs in 22 of the 29 counties in Utah. In addition, she directed 17 continuing education sites.

Professor Reese received a master's in Human Environments in 1995 and worked full-time during the process. She is the mother of seven children, four of whom are living, and 16 grandchildren.

Professor Reese is most deserving of the award that recognizes outstanding service. It is fitting that she is honored for her long-standing dedication to USU Extension by receiving the E.G. Peterson Extension Award.

FACULTY UNIVERSITY SERVICE AWARD

Rebecca G. Lawver

Rebecca Lawver is an associate professor in Agricultural Education at Utah State University who began her career in the College of Agriculture and Applied Sciences in January 2010. Prior to coming to USU, Dr. Lawver was a high school agriculture teacher in Nebraska.

In the School of Applied Sciences, Technology and Education, Dr. Lawver has been the faculty advisor for the USU Collegiate Future Farmers of America Chapter and is currently the faculty advisor for the Alpha Tau Alpha organization. She has served on several faculty selection committees, the ASTE graduate curriculum committee, and is a serving chair and committee member for three tenure and promotion committees. Within

the College of Agriculture and Applied Sciences, Dr. Lawver has served on faculty senate for five years, including serving three years as parliamentarian. At the university level, her service includes the Title IX Policy and Process working group, the Athletic Council and the Council on Teacher Education. She has presented to student groups as part of the Connections panel and at A-Day. Dr. Lawver is also on the Empowering Excellence in Teaching Committee in Academic and Instructional Services that administers the ETE program for all faculty across the USU statewide system.

Dr. Lawver's dedication and service to others provides inspiration in her leadership class where students have provided more than 100 hours of service to the campus and Cache Valley communities. Off campus, Dr. Lawver is a member of the Ridgeline High School PTA and chaperoned ten high school students on a humanitarian trip to Les Cayes, Haiti, in 2013.

Dr. Lawver received the National New Teacher Award in November 2016 at the Association of Public Land-grant Universities meeting in Texas. The recognition for her outstanding teaching comes from the U.S. Department of Agriculture and National Institute of Food and Agriculture's National Awards Program for excellence in college and university teaching in the food and agricultural sciences. In 2015, Dr. Lawver was recognized at the North American Colleges & Teachers of Agriculture Conference, receiving the NACTA Educator Award, where she was honored for her "commitment, excellence and scholarship in college teaching." In 2014, Dr. Lawver was awarded the USU Robins Award as the Undergraduate Faculty Advisor of the Year for her hard work and dedication to individual student goals, academic and career advising and scholarly activities.

Dr. Lawver earned a master's in leadership education at the University of Nebraska and her doctorate in agricultural education at the University of Missouri.

TEACHING EXCELLENCE AWARDS

Through an extensive selection process involving both students and faculty in the various academic colleges, eight members of the faculty have been designated for special recognition for excellence in teaching representing the eight colleges of the University: Agriculture and Applied Sciences; Caine College of the Arts; Jon M. Huntsman School of Business; Emma Eccles Jones College of Education and Human Services; Engineering; Humanities and Social Sciences; S. J. & Jessie E. Quinney College of Natural Resources; and Science. From all the eight, The Eldon J. Gardner Teaching Award recipient is chosen; the seven remaining follow:

College of Agriculture and Applied Sciences

S. CLAY ISOM

S. Clay Isom's success as a teacher can be accredited to his sincere desire to see his students learn the material and perform well in his difficult courses. Since joining Utah State University's Animal, Dairy and Veterinary Sciences' faculty, Dr. Isom has re-designed and re-structured multiple classes. While doing so, he has expanded the curriculum in animal sciences in many ways.

Students in Dr. Isom's classes find that, although the curriculum is demanding, his variety of teaching methods and contagious enthusiasm relieve some of the stress of learning complex material. He continually works to find new and innovative methods of presenting information so that students of all backgrounds and skill sets can learn the material. Many students note that although Dr. Isom's classes are challenging, they are often their favorite classes because of his passion for teaching.

Dr. Isom gained practical experience with animals growing up in Lyman, Wyoming, and working alongside his siblings and cousins on a cattle ranch. His academic specialty is reproductive physiology. Dr. Isom's research focuses on characterizing and mitigating the causes of early embryo failure and on improving reproductive technology efficiency in livestock. His teaching extends to the laboratory, as he involves many undergraduate and graduate students in his research. He received the 2014 Graduate Research Mentor of the Year Award from the College of Agriculture and Applied Sciences.

An alumnus of Utah State University, Dr. Isom earned a bachelor's in animal science in 2000 and then a doctorate in animal sciences from the University of Missouri in 2006. He worked as a post-doctoral research fellow at University of Missouri and joined the faculty at Utah State as an assistant professor in 2010.

STERLING A. BONE

Sterling A. Bone is an Associate Professor of Marketing in the Management Department and Director of the Huntsman Sales Academy at the Jon M. Huntsman School of Business.

An alumnus of USU, Dr. Bone was the beneficiary of life-altering mentors while he was a student. Paying it forward to his Aggie students, he helps students launch and accelerate careers in strategic sales and marketing. Dr. Bone's students have launched sales and marketing careers with Fortune 500 companies and rapidly growing startups.

Dr. Bone received a bachelor's (2000) and M.B.A. (2001) from Utah State University, where he also served on the President's Leadership Council (1994-1995, 1997-2000). He received his doctorate from Oklahoma State University in 2006.

Dr. Bone's research has appeared in the *Journal of Marketing Research*, *Journal of Consumer Research*, *Journal of Service Research*, *Journal of Public Policy & Marketing*, *Harvard Business Review* and other notable journals.

Dr. Bone currently serves on the Arizona State University Center for Services Leadership research faculty network and the editorial review boards of the *Journal of Service Research*, *Journal of Public Policy & Marketing* and the *Journal of Business Research*. Prior to returning to ASU, Dr. Bone taught at Oklahoma State University and Brigham Young University, where he earned numerous awards for his research and teaching.

BETH L. MACDONALD

Beth MacDonald is giving an important gift to the world: exceptional math teachers. Society needs mathematicians who are both creative and technical, and Dr. MacDonald trains educators to respond to diverse student learning needs. The pre-service teachers she trains are often surprised at how much fun math can be. When they go on to help their own students to enjoy learning math in the same way, it is a great reward for Dr. MacDonald to know that many students are being positively affected.

Dr. MacDonald encourages future teachers to integrate assessment into daily activities, so that they can be constantly updated and aware of the diverse ways their students are learning. The ability to communicate and listen effectively when engaging students in mathematical discourse is vital.

Teaching for 15 years in elementary classrooms prepared Dr. MacDonald to be an advocate for her pre-service teachers. Delving deeper with her doctoral students, Dr. MacDonald also prepares math education teachers and researchers for academia. They learn math educational theory, curricula issues, math teacher education pedagogy development and research agenda development in one of the fields about which they are most passionate.

As an assistant professor of math education, Dr. MacDonald teaches undergraduate courses to elementary teaching majors and middle-level math teaching majors. Her doctoral courses are in math educational research, math education curriculum theory, math education learning theory, math education academic writing, and advanced research design in math education. She has published with her students in a variety of education and math education journals.

Dr. MacDonald and her husband of 22 years have two children and they love to hike and travel across Utah.

College of Engineering

JOSEPH A. CALIENDO

Joseph Caliendo has been an associate professor of Civil and Environmental Engineering at Utah State University since 1992.

Prior to joining USU, Dr. Caliendo worked for seven years with the Florida Department of Transportation and served as the State Geotechnical Engineer where he provided extensive design and construction experience on large bridges with major foundation systems. Concurrently, he was an adjunct professor at Florida State University and the University of Florida, where he taught evening engineering courses.

Dr. Caliendo teaches civil engineering courses ranging from undergraduate to graduate-level classes at USU, and is a short course instructor for the National Highway Institute. As an active technical member of the Pile Driving Contractors Association (PDCA), Dr. Caliendo is responsible for hosting and organizing the very successful Professor's Driven Pile Institute (PDPI) that has been sponsored by the PDCA since 2002.

Dr. Caliendo's academic pedigree includes bachelor's from both the University of Detroit, civil engineering (1969) and Humboldt State University, oceanography (1974) and a doctorate from USU (1996). A U.S. Navy veteran, Dr. Caliendo was a Navy diver and proud former member of Seabee Underwater Construction Team 2.

Perhaps one of Dr. Caliendo's greatest legacies to USU is his namesake sandwich that has been served at the Hub for many years. The iconic Marv n' Joe open-faced sandwich was co-created by Dr. Caliendo and his colleague Dr. Marv Halling.

Dr. Caliendo and wife, Joyce, have raised five children, four of whom are USU alums.

College of Humanities and Social Sciences

RAVI M. GUPTA

Ravi M. Gupta is an internationally respected scholar of Hinduism and director of Utah State University's Religious Studies Program where he holds the endowed Charles Redd Chair of Religious Studies.

Religious Studies is housed in the Department of History and Dr. Gupta was promoted to full professor in 2016.

Dr. Gupta received his Doctor of Philosophy at the University of Oxford where he remains a Permanent Research Fellow of the Oxford Centre for Hindu Studies. He is the author and editor of four academic books including a translation from Sanskrit of the *Bhagavata Purana*, a central devotional text of Hinduism. Dr. Gupta has written widely and lectured worldwide on Vaishnava philosophy.

Before coming to USU in 2013, Dr. Gupta taught at the University of Florida, Kentucky's Centre College and the College of William and Mary. He teaches courses on World Religions, Hinduism, Religion in Performance and Sanskrit.

Dr. Gupta is applauded by students for his success in communicating the wide variety of religious traditions in an accessible way.

"Brilliant professor, concise yet quirky and offbeat," one student reviewer has written; adding, "Interesting lectures that welcome questions." His students have gone on to graduate schools and successful careers around the nation.

Dr. Gupta has received four teaching awards, a National Endowment for the Humanities summer fellowship, two research fellowships at Oxford and a book award. He is a past president of the Society for Hindu-Christian Studies.

The professor is a native of Boise where he spent many years in his parents' Indian restaurant bussing tables, running the cash register and "introducing customers to basmati rice and cabbage pakoras," he says. He now lives in Logan with his wife, Amrita, and their two children.

S. J. & Jessie E. Quinney College of Natural Resources

ANDREW KULMATISKI

An assistant professor in Utah State University's Department of Wildland Resources and the USU Ecology Center, Andrew Kulmatiski teaches a broad array of undergraduate and graduate courses ranging from vegetation and habitat management and plant physiological ecology to range plant taxonomy and function and data analyses and communication in plant soil science. But a common thread running through each class is Dr. Kulmatiski's aim of helping students become skeptics and problem solvers.

Noting the "explosion" in the volume of data available to scientists, Dr. Kulmatiski guides learners in achieving skills needed to interpret information and understand the connection between conceptual ideas and practice.

Students praise Dr. Kulmatiski's emphasis on hands-on learning, as well as his coordination of frequent field trips that take students beyond the confines of the classroom into the outdoors. Stamina, his colleagues say, is one of his outstanding traits, as he spends hours scouting and planning trips as well as spending time in the field (often in challenging weather) with students. This format allows Dr. Kulmatiski to work one-on-one with individuals or in small groups, to enhance students' experiences and allow them to fully understand such topics as plant identification.

Dr. Kulmatiski's enthusiasm for science and easy banter with students creates an accessible learning environment and fosters student retention.

Said one student of Dr. Kulmatiski, "He's pretty much the coolest guy I've ever met." Said another, "Dr. Kulmatiski gave us opportunities to enjoy being outside and a good balance between learning what we need to know and fun. He made plants so interesting, which is not a light task."

College of Science

BENJAMIN J. BURGER

An assistant professor at Utah State University Uintah Basin in Vernal, Benjamin J. Burger has taught distance education classes in geology since 2011. Dr. Burger teaches courses ranging from paleontology, dinosaurs, the history of Earth and sedimentology to petroleum geology and physical science. His enthusiasm for his subjects is contagious, as he guides students in learning and challenges them to push their intellectual boundaries.

To accommodate students both on and off campus, Dr. Burger has produced hundreds of science videos to aid student learning. Brimming with engaging graphics and his warm humor, the videos are enjoyed by USU students as well as the public. Students praise his innovative teaching styles and describe Dr. Burger as a teacher genuinely interested in his students' success.

Though geographically far from his students, who range from scholars in small communities throughout Utah as well as learners overseas in such places as Romania and Korea, Dr. Burger remains accessible.

"Though we never met face-to-face," says one student. "I always received a prompt response from Dr. Burger, and he always made an effort to answer my questions thoroughly and ensure I understood the coursework."

With warmth, humor and a passion for science, Dr. Burger exemplifies Utah State University's land-grant mission to provide access and welcoming service to Utahns throughout the state and learners beyond state borders.

ALUMNI ASSOCIATION LETTER

Dear Utah State University Graduate:

Congratulations on your graduation from Utah State University! Your degree is a significant accomplishment representing years of hard work and sacrifice. Your degree will be awarded during the “Commencement” ceremony, which means “beginning.” Why do we call the end of your formal schooling the “beginning”? I think it is because the educational process is, and should be, a lifelong proposition.

This also marks the beginning of a new phase in your life – the beginning of a new career, the opportunity to apply what you have learned, or perhaps the beginning of an advanced degree. All of which are new beginnings.

Another important beginning is your lifelong connection to Utah State University. Let it be the commencement of a commitment to a lifetime of continued association with USU.

The Utah State Alumni Association seeks to “contribute to the success of USU by providing opportunities for meaningful, lifelong involvement for its alumni, students and friends.” Opportunities for meaningful involvement are many and might include visiting campus as frequently as possible to attend events. You can show your Aggie pride and generate scholarship funds for USU students by purchasing an Aggie license plate for your vehicle. You may also want to stay connected through the Aggie professional networks or by participating in regional activities sponsored by the Alumni Association. I invite you to keep your contact information updated so that we can communicate with you to let you know about all the great things going on at USU.

I also invite you to take full advantage of all Alumni Association benefits as listed on our website at www.usu.edu/alumni. In addition, I’m delighted to announce the opening of the USU Credit Union University Welcome Center. From now on when you return to campus there will be a central place for you to check in for information and assistance with your visit by our alumni staff.

Finally, our Alumni Association can be contacted at any time to ensure that your needs as a valued USU alum are met. You can reach them by calling 1-800-297-ALUM or sending an email to alumni@usu.edu.

As many commencement addresses have emphasized, it is important to serve a cause greater than ourselves. I hope you are inspired to engage as an alumnus. We all have much to offer to the USU community. Please continue your involvement with Utah State and find simple ways to “give back” to your alma mater. Your support will ensure that we can continue to live by the motto of “Stand Up. Get Involved. You’re an Aggie!”

Good luck and much success.

Proud to be an Aggie,

A handwritten signature in cursive script that reads "Lane L. Thomas".

HONOR GRADUATES

The quality of performance in academic work enables the following to be graduates with distinction. Those who have met the residence requirement and have maintained a grade point average of 3.95 to 4.00 are graduated Summa Cum Laude; those whose average is 3.80 to 3.949, Magna Cum Laude; and those whose average is 3.50 to 3.799, Cum Laude. High Honors and Honors apply to those receiving Associate Degrees or Certificates. Those who have maintained a grade point average of 3.75 to 4.00 are graduated with High Honors; those whose average is 3.5 to 3.749, Honors.
